New Bank Structure Will Be Last Word in Modern Facilities

Bank of America's new building at Broad and Pine streets, cosntruc-on of which will begin within the next few day,s, will combine architectural dignity with the most modern and serviceable equipment.

The new building will have a frontage of 37 feet on Broad Street and 72 feet in Pine. In addition to banking quarters for the Nevada City Branch of the Bank of America, the structure will include pace for a store on the Broad Street side.

The building, which is one story in height and designed in modern American style, provides spacious accomodations for customers of the bank and for the staff of officers and employees.

All exterior walls are of reinforced concrete with stucco plaster finish. The banking room will be given an acoustical treatment on walls and ceiling, and the latest heating and air conditioning equipment will be installed.

Entering the door of the new banking office, a visitor will find on his right, on the Broad street frontage, space for officers of the Bank of America Bracnh. Immediately beyond will be located the Note Department and beyond that, six windows for tellers of the Commercial and Savings Departments. The Statement Department will occupy the rear window of the customers' counter.

Work space for the Savings and Commercial Departments will be provided at the rear of the banking room on the Pine Street side.

Adjacent will be the Safe Deposit lobby, containing coupon booths, which adjoins the large vault containing safe deposit boxes. A stairway will give access to storage space in the basement.

The entire floor space to the left of the counter will be devoted to accomodations for customers. This portiin of the bank will be provided with an asphalt tile floor. A conference room in the rear of the banking room will be available for meetings of the local advisory board.

A combined heating and ventilating system has been ordered for the new building to permit air conditioning both in winter and summer.

Either warm air or cool air can be circulated through the bank by a pressure sysytem, in order to make possible an equitable temperature regardless of weather.

Lighting will be taken care of by a combined system of overhead lights and wall brackets. Modern and attractive fixtures have been selected. Windows are large and numerous in order to provide the maximum natural light.

The new building will provide a greater amount of space for customers and personnel of the Bank of America Nevada City Branch, and will encompass the most modern features of convenience and utility.

VICTIM OF BAD FALL EXPECTED TO RECOVER

C. A. Boren, who fell from a high scaffolding Tuesday while painting the interior of the Methodist church is resting comfortably in the Jones Memorial hospital in Grass Valley. He suffered a broken pelvis, a broken arm and two broken ribs. His injuries were largely due to the fact that he fell upon the back of one the pews. He is expected to recover.

MAN WHO FELL FROM FLUME PASSES AWAY

Humphrey Lynch, who fell approximately fifty feet from the duckboard of the flume back of Holmes undertaking establishment Wednesday, passed away at midnight Wednesday in th Ceounty Hospital. The remains will be forwarded to San Francisco by the Holmes Funeral home.

The deceased was a miner, 62 years of age. He had lived in this vicinity for the past two years. His brother, Daniel Lynch, arrived yesterday to make arrangements for the last rites. A sister, Mrs. David Casey of San Francisco, also survives.

The Song

From a storm swept crag of the mountain range
Where the eagle builds her nest,
From the crooning waves on a quiet shore
Where the white gull dreams of rest;
From a dusky den in the tangled wood
Where the lion rears her young,
From the fronded palm in a sun-kissed vale
Where a tiny nest is hung;
From mystical realms of darkness,
From smiling hills of light,
From the frozen wastes of the midnight sun,
And the desert parched and white,
Messages sweet and tender
Are borne to the souls of men;
By the whispering winds of early morn
As they fly over cliff and fen;
And a song floats down through the twilight,
From the blue of the starlit dome,
To thrill our hearts with its music,
For its wonderful theme is—Home.

FUNERAL EOR DROWNED YOUTH

Funeral services were held at the Holmes-Hooper parlars at 2 o'clock yesterday afternoon in Grass Valley for Teddy Tucker, who was drowned in the waters of Combie Dam in the Cottage Hill district at about 5 o'clock Monday afternoon.

Many friends of the unfortunate youth and his parents attended the last rites The Rev. E. O. Chapel conducted the service.

The whole community has been greatly shocked by the drowning of this fine fifteen year old boy who came from Los Angeles last week with his mother, Mrs. Gertrude Tucker, to visit his grandmother, Mrs. Cal Freeman of Whiting street, Grass Valley. Throughout the day of the drowning Coroner A. M. Holmes and his deputies put forth every effort to locate the body and were assisted by many volunteers, but even with the use of grappling hooks and dynamite were unable to find or raise the body. Tuesday afternoon Harold A. Tucker, father of the boy recruited a group of Nevada City young men who are strong swimmers and with them began the search anew. They found the body Tuesday in about six feet of water off shore some distance east of the point where he was last seen.

Harlan Pierce of Nevada City receives credit for locating the body and bringing it to the surface. Those in the group were Bert Tucker, the father; Carl Tobiassen, William Zanocco, Dan Schacht, Elmo Williams, Harlan Pierce and Charles Steffen. The entire gruop of young men deserve a great deal of credit for their efforts in locating the body in the muddy water.

Teddy Tucker was the son of Mrs. Gertrude Tucker of Los Angeles and Harold A. Tucker of Nevada City, grandson of Mrs. Cal Freeman of Grass Valley and brother of Laverne, Phyllis, Carlton and Donald Tucker of Los Angeles, and a nephew of Mr. William Hatch of Nevada City.

$7,500,000 GOLD FOR NEVADA COUNTY

Improved business conditions in this district as noted in the Bank of America Business Review of July 20:

"**Gold Mining**—Activity in gold mining continues at a high level and it is estimated that production in Nevada County for this year may reach $7,500,000.

Employment in the vicinity of Grass Valley and Nevada City in the gold mining industry is estimated at 2700 men, an increase of 100 per cent over four years ago.

Pears—Although a considerable amount of blight damage among orchards is reported from the higher elevations, the crop as a whole will be good both as to quantity and quality. The price outlook continues to be good".

SCOOP THURMAN GREETS FRIENDS

"SCOOP"

Allen G. Thursman, publisher of the Colfax Record and candidate for assemblyman from this district made a campaign visit to Nevada City on Wednesday calling on a number of the citizens. He plans to return later for a more thorough canvass. To date he has visited the four northern counties of the district which is the largest in the state and plans an extensive visit to the southern counties the middle of August.

iSnce entering the campaign, Thursman has received the endorsement of several newspapers in the district as well as much favorable comment in nearly all of the some thirty odd newpsapers.

E. C. UREN EXAMINES MINE

Ed C. Uren, mining engineer, of Nevada City has been busy the last few days sizing up and estimating the gravel on the River Mines or Morton property at French Corral, in order to get the yardage of gravel that can be hydraulicked.

There are about 1,000 acres in the property. J. M. McKenzie is attorney for the company.

The company plans to hydraulic as soon as water can be obtained.

BLUE POINT GRAVEL MINE

Mining has been resumed at the Blue Point Gravel mine near Smartville, where the burning of the Nevada Irrigation District flumes in the 40,000 acre fire of several weeks ago, caused a shutdown until the necessary repairs were made.

The mining company sent crews to the Mooney Flat section to assist in retimbering the flumes. The Gold Exploration Company subsidiary of the Tintic Standard operates the property.

Mr. and Mrs. Howard Wasley have just returned from a vacation spent in Oakland.

Urgent Need of More Housing Is Apparent

INCREASE IN POPULATION IN FOUR YEARS APPROXIMATELY 10,000. HUNDREDS ARE LOOKING FOR HOMES IN NEVADA COUNTY.

Nevada County with its towns and mining camps and its populated streams and gravel beds, is surging forward again. There is a sound of building within the city and throughout the woods. Hammer and saw are busy putting up shelters, cabins or cottages for the steady stream of home seekers who must have a place to live.

The enrollment of voters for the great register hows that there are 9,279 votesr in the county as against 5,513 four years ago. Allowing 2½ persons for every voter, it is safe to say that the county population has increased from 13,882 four years ago to 23,197 today. This seems a very conservative estimate.

Nevada City's regitered voters number 1,544, which indicates a population of 3,860. If to this is added 333 voters registered in the Gold Flat, 274 in Selby Flat, and 213 in Willow Valley, a total of 820 more voters, the population immediately adjacent to Nevada City totals 4,050.

Grass Valley with 2,952 voters indicates a population of 7,280, and if t othis is added Buena Vista with 144 voters, Cottage Hill with 97, Empire 305, Forest Springs 155, and Hills Flat 559, to all of 1260, the population ajdacent to Grass Valley will total 3,150.

Incidentally it is worth noting, that, despite the general swing to the Democratic party affiliation in most parts of the state, in Nevada County, Republicans continue a diminished but comfortable majority with 4,494 registered as against 4,276 Democrats, 453 refusing to state their party affiliation, and 56 others registering in minor parties.

It is apparent to any observant person that the population of Nevada City and Gras sValley has grown far faster than has building construction to house them.

The record of recent building operaions which follows is not of course complete. But it does summarize the activities in repairing remodeling, expanding and erecting new homes during the past few weeks. And were everything recorded here, it would only be a drop in the busket to the present urgent need for housing.

A number of changes have taken place in Nevada City and surrounding district within the last few months as business houses and homes are being built, rebuilt or painted up to look like new.

The old buildings where the new Bank of America home is to stand, are disappearing as if by magic Work of constructing the new building is to start in a few days.

Across the street Robert Steger and Sons are making some repairs to the Masonic hall. Johnnie Bray of Grass Valley has the contract to repaint the Masonic hall and business corner.

The Charles Godfrey home on East Broad street is just about completed.

Jake Zanocco, who resides at the corner of Park and Nimrod streets, has just completed a new five car garage to the back of his home, and is now excavating for a modern four room cottage and porches at the corner of Park and Nimrod. He plans to tear down a large barn on the property a little later on and bulit another cottage.

The new beer parlor and garage being built by Mrs. Gina Ferano on Sacramento street is going up rapidly. A neat stucco finish is being given the front of the building.

Mrs. Dan Coughlin of Main street has just completed porches on her property.

George Finnegan, who now resides in the bay district, has just had his house remodeled and it in now being painted.

The homes of E. E. Barker and Fred Cassidy have just been repainted.

The tract nearest to town is the one purchased by W. H. Daniels, insurance man, several months ago

FORWARD AGAIN

There may be something exhilirating in the spectacle of two or three regiments of soldiers on a parade ground executing the command: "Mark Time." Usually they mark time preparatory to going some place. But there is nothing more discouraging than when an entire community marks time, or worse, executes an about face and looks backward over the years at the glorious moments in the community's past.

Most Mother Lode towns until recently have marked time and about faced. Exceptional men and women, who wished to get somewhere in this mundane sphere moved away into the growing, hustling, progressive parts of the world, where youth has higher values, and hard work and sound thinking bring greater rewards.

But now the tide turns again, the Lure of Gold, that first created the Mother Lode cities, then ebbed, and left high and deserted with their precious memories among the mountains, is returned to its native hills.

Witness today's story on the front page of this newspaper. Not in many a long year has there been such a demand for housing facilities in Nevada county. Yesterday morning, for instance, one Nevada City real estate dealer had nine calls for houses. Men are coming here with families. They find nothing to shelter them, though they beg with money in their hands.

Failing to find suitable houses to rent or buy on terms, scores of these home seekers are buying or renting a bit of land and putting up cabins until they can do better. Along the road to the Murchie mine are eight new cabins, and these must obtain their water from old wells. Out in Willow Valley one enterprising new comer (he has only been here six years) has built and purchased seven houses, and they are all occupied. His rent roll he regards as permanent, for, he says, if any thing untoward should happen to the mines, he has all the makings of a first class summer resort.

At the city's outskirts, is another man who looks ahead. He is constantly building cabins and houses, but work as hard as he will, he is never able to supply all those who ask for apartments, cabins or houses.

What the town needs is a new residence park backed by capital to give it every modern convenience in the way of lights, sewers, streets, water facilities etc. We'll gamble a dollar to a doughnut that any man who will spend $100,000 in such an enterprise, will find more gold than nine out of ten men who put the same amount into a mine. And that's not saying that mining ivnestments made under rpoper advice and with canny caution are not good.

The Bank of America is building itself a permanent home here. Down there in San Francisco, where the "head men" live and survey the state through a telescope, watching the payrolls, the car loadings, the crops, and the flow of tourist traffic, gauging and measuring all the factors that favor or hinder an investment of this kind, they have decided that a Nevada City Bank of America building is a good investment. By the same token a home built in this city or near it is a good investment.

There are easily five hundred more people in Nevada City than last year at this time. The increase in water service by the city, and in electric installations by the P. G. & E., make this a modest estimate of the increased population. The town bulges with people crowded into quarters that are too small.

We have marked time. We have gazed sentimentally on the past and its great achievements. Let us hear the commend: "FORWARD—MARCH! and do it.

HIGHWAY EMPLOYEES PICNIC AT OLYMPIA

The second annual picnic outing of the Nevada City state highway employees, held at Lake Olympia last Sunday was attended by over 200 state highway employees and their friends from Colfax, Downieville, Grass Valley, Nevada City, North San Juan, Oroville, Sacramento, Truckee and Williams.

Tables were spread with picnic basket lunches at 1 p. m., which was followed by games and races with prize scontributed by Mr. and Mrs. F. R. Garrison, who inaugurated the picnic idea shortly after their arrival here last year, for the winners.

Refreshments were served throughout the day by Simon Hieronimus and Dick Nickless.

JANES SUBMITS PLAN FOR CLEAN SWIM POOL

Addison M, Janes, asked by the city council to submit a plan for the operation of the municipal swimming pool has submitted two plans. One provides for its support by a general tax and the other by charging a small admission. The city council has not yet decided which plan it will adopt.

Janes prefaces his communication by expressing the hope that swimming pool and park will be the center of an ever expanding community center for recreation.

He recommend that life guards be selected from older Boy Scouts or students who passed the Red Cross Life Saving tests; that a concession booth be established to defray part of the expenses; that the tank be cleaned every day and given a thorough cleaning at least twice a month; that the pool be opened from 10 a. m. until 8 p. m. The total cost for the summer months, according to Jane will be approximately $230. per month during the summer.

KENTUCKY RIDGE MINE

The Kentucky Ridge mine adjacent to the Newtow nsection west of Grass Valley, was take nvoer recently by Ellsworth Wood, a Denver capitalist, and associates. H. D. Quimby, mining engineer of San Francisco, is in charge of development.

Mining equipment for operating the property is being shipped from Placerville. The Kentucky Ridge mine has been idle for 50 years.

THARP FINDS FAIR OWNER OF LOST PURSE

Miss Eloise Ewing, member of one of the girls camps at Lake Vera, is happy again. Monday night, on leaving the theater, she dropped her purse on the steps. Deputy District Attorney Rober Tharp found it and left it and left an ad. for the lost and found department of the Nugget. Yesterday afternoon, however, he happened to hear the young lady asking where to find Wm. V. Tamblyn, theater manager, incidentally mentioning that she had lost her purse. A brief cross examination satisfied Tharp she was the real owner of the purse, which contained $31.60, and, to her great joy, he pulled it from his pocket and handed it to her.

MORE CCC BOYS ENROLL

Fifteen recruits enrolled for CCC Camp service in the Tahoe-Ukiah camp on the highway east of Nevada City and left for camp yesterday. These young men have enlisted for six months. Most of this group are from Nevada County.

ALASKA MINE

The gallows frame is over half up at the Alaska mine and work is to start soon on the ore bins and other surface equipment. Al Kelliher of Nevada City has the contract for the building of the surface plant.

It is reported on gold authority that as soon as the head frame is completed sinking operations are to be started. A crew is cleaning out the old drain tunnel. About ten men are employed at the property.

Jimmie Tembath is superintendent.

W. V. Tamblyn and son, Will, Jr., spent some time in the Quaker Hill district recently fishing. When about three quarters of a mile above Quaker grade they encountered a big bear. Young Tamblyn, who had just returned from a trip to Yellowstone National Park recently said this bear was larger than any he had seen in the park.

James Grimes came down from the American Flag mine in which he is interested, recently. He had some retimbering done at the property.

ID FOR DEBT IDDEN FARMERS IS EXPLAINED

Provisions of the Frazier-Lemke endment to the national bankptcy act do not delease the farmfrom their debts but do provide last resort to protect the farmers m losing their property in event at it is impossible to find any her way through debt adjustment mmittees to scale down their oblitions, was tated today by Mr. H. Cox chairman of the Nevada unty farm debt Adjustment Comittee.

Interpretation of the Frazieremke Amendment, which was signl by the President on June 28th, ceived by Mr. Cox from the Calirnia Farm Debt Adjustment Comittee, of which Mr. T. C. Tucker is hairman with headquarters at San rancisco. There are now fiftyfour oluntary county farm debt adjustent committees in California, acording to report received here. The ommittees are working on avoluntary basis to assist farmers who, due o prevailing economic conditions, equire a readjustment of all their inances. The committees are cooperating also with the county conciliators appointed by the Federal Courts.

Mr. Cox stated that the County Farm Debt Adjustment Committee will meet regularly, depending on the number of applications it receives from farmers for hearing. There is no charge made to farmers who present their cae and the work of the Committee is on a voluntary basis. Members of the Committee are: Mr. Warren Odell, Mr. William Durbrow, Mr. P. G. Scadden, and Mr. H. W. Robinson.

William Kervin, linotype operator for the Nevada City Nugget, has just returned from a two week's vacation spent in Satl Lake City and other cities nearby.

SHORTERCODE HOURS BENEFIT TO WOMEN

WASHJNGTON — Decided improvement in the health of women workers in factories, stires, and laundries has been one of outstanding benefits of the shorter work week under NRA codes, said Miss Mary Anderson, head of the Woman's Bureau of the Department of Labor, on the first anniversary of the cotton textile code July 17. In disucssing inauguration of the 40-hour week in cotton mills, which supplanted the 55-hour week, Miss Anderson declared: "Losses due to wear and tear of long hours on human beings industry has long neglected to count, although it always carefully considered deterioration of machines. Let me cite the case of a woman who came to my attention rently. For 20 years, since she was 14 years old, she had averaged 54 to 56 hours weekly in factories. After the code reduced her work time to 5 days of 8 hours each she had gained 30 pounds in 3 months. The shorter work schedule is more welcome to women than to men, because so many women, single as well as married, must perform home duties before and after factory hours. For many thousands the reduced hours has afforded time for brief recreation for the first time thir lives."

MOTHER LODE OUTRUT MAY BEAT SOU. AFRICA

The Mother Lode is the most extenive mineral zone in the state. Its most southern extreme is the southern edge of Mariposa county. This vast area, extending some 90 miles or more, through more than five counties in Califrnia, is one of the most prolific producers of gold. It is declared that it covers a greater area than the Rand Gold Fields in South Africa but up to now has never been as highly prospected or production encouraged as in South Africa, where some 60 per cent of the gold of the world is now being prduced. It has been estimated that if intensive operations were carried on at the Mother Lode it would beat the South Africa district four to one.

NOTICE TO CONTRACTORS

Sealed proposals will be received by the Board of City Trustees at the City Hall, Nevada City, California, until 8:00 P. M. Monday, July 30th, 1934, for the construction of a change house in connection with the Municipal Swimming Pool, in accordance with the specifications therefor; to which reference is made in the following separate items.

CITY ENGINEER'S APPROXIMATE ESTIMATE

Item 1. The construction of a reinroced concrete floor and foundation for a change room 12 x 100 feet.

Floor 4 inches in thickness reinforced at the center with wire mesh weighing not less than 30 pounds per square of 10x10 feet, and containing approximately 21 cubic yards of concrete.

Thirty ½x10 inch carriage bolts for anchorage in walls 4 inches thick and extending 6 inches above the floor.

Eight 4 inch cast iron sewer connections; one 3 inch cast iron urinal connection and one 2 inch foot bath connection; two basin connections; five strainers for 4 inch outlets—all installed.

Item 2. The main building 12 feet in width and 100 feet in length, maximum height 14 feet; to be constructed with 6 inch tongue and groove redwood log-strip facing to a height of 6 feet above wall, above which is a continuous opening one foot in width and 192 feet in length to be covered with No. 16 wire diamond mesh, 1¼ inch galvanized screen. Eighteen hundred and thirty six square feet of No. 26 gauge galvanized steel roofing. Nine change rooms, 3½ x 4 feet. Six showers; five toilets; ticket and concession room, requiring about 4120 board feet of clear lumber and 1880 board feet of dressed lumber. Five Yale type door locks; five doors; 29 pair of door hinges; forty coat hooks.

Item 3. Furnishing and installing five flush-seat toilets with traps and fittings. One four foot urinal trough with fittings. Forty 1 x 8 inch pipe supports with flanged ends. Two hundred and ten feet of 4 inch sewer pipe. Two hundred and seventy feet of 1 inch galvanized water pipe. Three hydrants and 8 shower heads, installed.

Item 4. Wiring, building and installing 10 plain, 30-watt light fixtures, each with 12 inch white porcelain enameled reflector.

Item 5. Furnishing 100 two compartment steel lockers 12 by 36 inches with locks and keys.

The foregoing quantities are approximate only, being given as a basis for comparison of bids, and the Board of City Trustees and City Engineer do not, expressly or by implication, agree that the actual amount of work correspond therewith, but reserve the right to increase or decrease th amount of any class or portion of the work as may be deemed necessary or expedient.

All bids are to be compared on the basis of the City Engineer's estimate of the quantity of work to be done.

Plans may be seen as well as specifications at the City Hall.

The general prevailing rate of per diem wages and also for legal holiday and overtime work in the locality in which the work is to be performed for each craft or type of workman or mechanics needed to execute the contract for performing th above described work and improvement is as follows:

Rates for eight hour week day:

Common laborer	$4.00
Truck driver	$4.50
Tractor driver	$5.00
Plumber	$7.00
Grader men	$4.00
Cement finisher	$5.00
Carpenter	$6.00
Electrician	$8.00

Maximum hours of work in one week, 30 hours. The rate for legal holiday and overtime work shall be one and one half time the above per diem rate. For any other wage scale not mentioned herein the prevailing wage scale of this district will prevail.

The Board of City Trustees reserves the right to reject any and all bids, or to accept the bid deemed best for the interests of the City.

GEORGE H. CALANAN
City Clerk.

Date adopted July 19, 1934.
Published July 20 and 27, 1934.

Nevada County Coroner—Offices in Nevada City and Grass Valley

Perhaps never before in the history of the county have the people given so much thought to the caliber of the man who will hold public office as well as their proved personal attributes and capabilities that would indicate how well they would hold their respective offices after being selected. This is true of the people of Nevada county, as it is of the nation. A. H. Holmes's constructive administration of his own private affairs and business has gained him a hearty regard and the respect of his colleagues, because his career as a citizen has been helpful and conducted in a sound and business-like manner. He has been indefatigable in his efforts to give the interests of his fellow citizens the best that is in him and his policies have been so manifestly honest and above board that he has won the plaudits of all, regardless of partisanship. It is such men who merit well at election time, for the day has passed when men are selected for office as a personal favor.

Tony Fradelidio has just completed the addition of a summer kitvenience of his home.

Dominic Mereztta has just remodeled and repainted the Union hotel which he owns on Main street and just recently built another house on his property east of the of the rail road depot.

Several tracts of land northeast of Nevada City have been thrown open for home sites in the last few months.

W. H. Daniels, who came here about two years ago, retained a part of the ground he purchased and now has a modern four room home and porches over half completed.

Lester Gregory, who retained a part of the property will start the erection of a home within two weeks, it is reported.

The Dow tract was opened up last summer the first lot being sold to Mr. and Mrs. R. M. Ewing, who now have a neat little home there. Several other lots have been sold, the latest going to Gove C. Celio and wife, who are erecting a pretty little log cabin. It is an ideal location in among the pines up on the Tahoe-Ukiah highway.

Bert Forman, employee of the Nevada County Lumber company, is expecting to build a home on property near the Winney chicken farm before long.

Will Davis of Sacramento, who owns two tracts of land in Willow Valley, started the erection of a new house on his property recently. Mr. and Mrs. Tortlett of Fresno county, started erection of a summer home on the Davis property last Monday.

Mr. and Mrs. O. E. Bettcher and son and family, who moved here from Oakland, have built several new cottages two homes and a store on property they purchased near the county hospital.

The little home of Mr. and Mrs. George Von Dornum on Boulder street is nearly done.

L. E. Sweeney, music instructor at the Nevada City High School, is building himself a new home south of Nevada City out past the SERA camp at Town Talk.

Ed. C. Uren, engineer, has just completed surveying the tract of land on Sugar Loaf for the Excelsior Water Company and if improvements are not too expensive this company plans to sell building lots.

The old Wadsworth property on Piety Hill owned by Judge Jones, is being remodeled by R. Stephens and Son.

PRINCESS PINE CLAIM SOLD

B. F. Johnston was a Nevada City visitor yesterday. He stated that he had just sold the Princess Pine placer claim located two miles below the American House on Slate Creek, in Sierra County, to Al Floer and associates of Strawberry Valley.

Mr. Johnston displayed a pretty nugget which he stated was similar to those taken from the gravel on the property.

Our Best Salesmen are the Users of the NEW "G3"

Yes sir—people who got the new G-3 All-Weather before it was advertised and have driven this marvelous tire many thousands of miles, are singing its praises louder than our advertising does! Particularly do they insist that the new G-3 gives better than the "43% more non-skid mileage" we advertise! All we ask is, before you buy tires give us a chance to show you why G-3 users boost it even stronger than we do!

G3
GOODYEAR
Diamond blocks not worn out at 20,000 miles. —Ky.
Over 22,000 miles—still plenty of traction. —Iowa
Am a rural mail carrier—travel 50 miles a day—make 200 stops—three G-3's put on last fall still have more than half their non-skid left. Fourth tire, not G-3, almost smooth. —Ohio

ASTONISHING NEW "G-3" GOODYEAR ALL-WEATHER

Look!—at No Extra Cost . . . 43% More Miles of real non-skid safety . . . Flatter Wider Tread . . . More Center Traction (16% more non-skid blocks) . . . Heavier Tougher Tread (average of 2 lbs. more rubber) . . . Supertwist Cord Body (supports heavier tread safely)!

Approximately 32,000 miles—still some traction left. —W. Va.

Usually wear out tires in 15,000 miles. No appreciable wear on front G-3's, little on rear, after 12,879 miles. —Georgia

DO we move about like Gypsies? It has been said that chain store employes are a nomadic tribe like Gypsies, that they don't live in a state long enough to vote or to become interested in its institutions. This is not true. The length of residence of our employes in the state in which they are now employed is sufficient to establish 99 percent of them as legal residents, in fact as high a figure as 28 percent of our employes are still working in their native states.
